This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source, with the provision that the permittee must remove the existing dam and reservoir at the point of diversion. He must also install a stockwatering trough, equipped with a float valve to prevent waste of water when the facilities are not in use. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of cattle served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0019 cubic feet per second, or sufficient to water 60 head of cattle.

Actual construction work shall begin on or before June 14, 1960

Proof of commencement of work shall be filed before July 14, 1960

Work must be prosecuted with reasonable diligence and be completed on or before June 14, 1961

Proof of completion of work shall be filed before July 14, 1961

Application of water to beneficial use shall be made on or before

June 14, 1962. Proof of the application of water to beneficial use must be filed with State Engineer on or before July 14, 1962
